

Resolution of Intent
Engagement with Estes Construction
For Purpose of Construction Management

The Board of Education of Geneseo Community Unit School District #228 resolves its intention to work collaboratively with Estes Construction and BLDD Architects for the purpose of completing necessary planning, then implementation and construction of new additions and upgraded facilities at Geneseo High School.

While the Board of Education already has entered into a contract with BLDD Architects, a contract between Estes Construction and District #228 does not currently exist.

This resolution formally authorizes the superintendent to negotiate the scope and costs of an Agreement between the District #228 and Estes Construction, and to bring said agreement back to the Board of Education for final ratification. This resolution formally authorizes the superintendent to engage with Estes to determine any appropriate invoicing for services rendered to this date should those fall outside the scope of any final Agreement draft.

Hereby resolved on this 14th day of April, 2016

Douglas Ford, Board President

John Puentes, Secretary
